### OBJECTIVE

---

Technology enthusiast with practical experience in cyber security fundamentals, AI-driven automation, and digital marketing strategies. Passionate about applying technical knowledge to solve real-world problems, improving digital security, and building efficient automated workflows. Seeking opportunities to contribute my skills, continue learning advanced technologies, and grow as a versatile professional in the evolving technology landscape.

### EXPERIENCE

---

#### Digital Content & Marketing Intern

*WeLe IntelliTech Pvt Ltd | May 2026 – Sep 2026*

- Assisted in digital content creation.
- Supported marketing campaigns.
- Worked with the team to complete assigned tasks.
- Improved content creation and digital marketing skills.

#### Cybersecurity & Ethical Hacking

*Independent Practice | 2024 – Present*

Actively developing practical skills in cybersecurity and ethical hacking through hands-on practice with Kali Linux and various security tools. Gaining experience in network traffic analysis, basic web application security testing, and studying common vulnerabilities such as those listed in OWASP Top 10. Regularly participating in Capture The Flag (CTF) challenges and exploring bug bounty methodologies to strengthen vulnerability research and security problem-solving abilities.

#### Digital Marketing & Automation WorkFlows

*Freelance | 2024 – Present*

Worked as a freelance digital marketing specialist managing and optimizing campaigns for more than 10 clients across different niches. Experienced in planning and executing Meta Ads campaigns, audience targeting, lead generation strategies, and campaign performance analysis. Currently managing three ongoing online clients while integrating AI tools and automation workflows to improve marketing efficiency and campaign results.

### EDUCATION

---

#### B.Sc Information Technology & CyberSecurity

JAMAL MOHAMED COLLEGE

**2024-2027**

Tiruchirappalli, india

#### Higher Secondary Education

Pallivasal Higher Secondary School

**2022-2024**

Ramanathapuram, india

Stream: *Bio-Mathematics*

## SKILLS & ABILITIES

---

### Cybersecurity

- Ethical Hacking basics
- Penetration Testing
- Web Application Security
- Network Security
- Vulnerability Assessment
- Bug Bounty Research
- Reconnaissance & OSINT

### AI Automation

- Workflow Automation
- Autonomous GPT Tools
- Process Automation with n8n
- MCP Integration

### Digital Marketing

- Digital Marketing Strategy
- Graphic Design for Marketing
- Lead Campaign Optimization

## CERTIFICATIONS

---

### Jr Penetration Tester Path

TryHackMe | 2026

### Pre Security Learning Path

TryHackMe | 2025

### Introduction to Cybersecurity

Cisco Networking Academy

### AI Tools & Automation for Productivity

Online Certification / Self Learning

## WORKSHOPS & SEMINARS

---

### 7-Day Digital Marketing Workshop

Jamal Mohamed College, Tiruchirappalli

Covered digital marketing fundamentals, Meta Ads strategy, lead generation, and AI marketing tools

## PROJECTS

---

### Portable Multi-Radio Pentesting Device

Built a handheld security testing device using ESP32 with CC1101 and nRF radios for wireless protocol analysis. Supports Wi-Fi/Bluetooth scanning, sub-GHz testing, RFID emulation, IR signal capture, and GPS logging for controlled cybersecurity research.

## DECLARATION

---

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
